RAYMOND

A live town in a rich agricultural and stock-raising district. A good place to make your home.

Annual Board of Trade Meeting Is Held

Idlers and Jacks Both Win

IDLES DEFEAT BARNWELL 53-20
IN LEAGUE GAME: JACKS
DEFEAT WILDCATS 44-37
IN CLOSE AND INTERESTING GAME

The Raymond Opera House, scene of many a hard fought basketball encounter, resounded again Saturday night to the vociferous shouts of a crowded gallery of spectators when the Idlers and Jacks both won their game from opposing teams in hard fought and thrilling games.

The Idlers played a league game with the Barnwell basket tossers, and while the game ended with a pretty good margin in favor of the Idlers, it was no walk away, and Barnwell will furnish plenty of opposition for any of the intermediate teams before the season is over, or we will be disappointed in them. Being idle for some time, some of the players lacked condition, and their team work was patchy, but they never lacked determination, and from the first whistle to the last, they played last-of-all-at-the-whistle.

The Idlers since the breaking up of last year's lineup, have not hit their old stride, but they are shaping up nicely, and Hague and Meeks, who are replacing Kirkham and O'Brien on the forward line are showing up well, and when Hague gets the ball and a chance at the hoop, it is 2 more points for Raymond. Kenney at centre is playing his usual good game, and Poley Hawkins and Joe Strong on the guard line. The subs, F. Hawkins, M. Ralph, W. Fairbanks, and J. Wooley, are all experienced players and when they have the chance they will do their share to uphold the reputation of the "Idlers".

The lineup was as follows:

Barnwell: Peterson, f.; L. Johnson, f.; Hunsaker, r.; Clark, g.; Stevens, g.; Peterson, Johnson, Anderson, subs.

Raymond: Hague, f.; Meeks, f.; Kenney, c.; Hawkins, g.; Strong, g.; F. Hawkins, M. Ralph, W. Fairbanks and Wooley subs.

Jack Dless of Calgary and Harry Fairbanks had the whistles for this game.

The second game between the "Y" Wildcats of Calgary, and the "Union Jacks" was a pleasure to watch from start to finish, and speed was the order of the full forty minutes of play. From start to finish it was a case of tit for tat in the scoring, and the first half was finally announced as 20-21 in favor of the visitors, after considerable discussion of a basket made by Raymond just as the half-time whistle blew. It was finally decided not to count it.

The visitors travelled at a killing pace during the first half, and both teams were guarding and checking so closely that long shots featured the scoring, and both teams fared about equally in this pastime. The ball travelled from one end of the hall to the other, and innumerable long passes were intercepted by some long jump by the opposition. Fouls were frequent, and the referees' whistles were nearly always blowing. The recess between periods was welcomed by all the players.

Coming back after the intermission the Jacks were playing better combination and getting in closer to the board before shooting, so that the scoring was not such a chance proposition. Whether the long trip had tired the Wildcats, or whether the Jacks had solved their system, we cannot say, but the rushes and dribbling of the visiting quint lacked a little of the fire in the last quarter that had been so outstanding in the first 30 minutes of play. Oh, no, they didn't weaken. Not by any means, but their playing was not quite so worth sending for.

Stake Priesthood Meeting Held Sunday

The regular monthly Stake Board Meetings of all auxiliaries were held here on Sunday Jan. 25th at 1:30.

Following these meetings the regular Monthly Priesthood Meeting was held at 3:45. The following were present for ordination to the office of elders: Albert Clark of Stirling, S. J. Lett of Raymond 1st Ward, W. Sabey, A. Terry and J. H. Ford, of Raymond Second Ward. They were all accepted unanimously for this promotion.

After the other business of the meeting, the time was turned over to four of the Stake and the following spoke: Bishop J. H. Walker of the Raymond Second Ward encouraged the people to yield obedience to the commandments of the Lord, and not worry so much about material wealth and so little about the more valuable things of life. Bishop A. L. Fawcett of Stirling encouraged strict adherence to the teachings of the Word of Wisdom, and told of the peace of mind that obedience always brings. Bishop Levi Barker of the Magrath 1st ward had a message of contentment for the people, stating that he thought this was the very best place we could be in at this time. He also encouraged a closer adherence to latter-day Saint ideals. Bishop Allen of the Raymond 1st Ward urged the people to be contented as they were independent, and generally speaking well provided for. True it was, there was not much money, and we could not pay all of our bills, but we could all serve the Lord, and although statistics showed that we were well up in the average of the church in all activities, there was room for improvement.

President Allen announced Conference for Feb. 7th and 8th in Magrath, the first meeting at 8 p.m. on Saturday evening.

Efficiency To Win World Wheat War

Mechanical wheat production methods are conquering the world, and all methods must continue to advance to hold the lead.

Modern methods of large scale wheat production are pictured in the new film to be shown Feb. 12 and 13 at the school conducted by Union Tractor & Harvester Co. Ltd. "Caterpillar" dealers in the Masonic Hall, Lethbridge.

Night and day work, drilling 60 acres a day, gangs of tractors

The High School won their league game in Cardston on Friday night, and are duplicating the record of no defeats that they made last year. They will take a lot of beating if they do not carry off the Provincial High School honors again this year.

Our High school Basketball team played an exhibition game with Pioneer Creek in Balmore last Saturday night. It was rather a one sided affair as the Pass people have not been playing much basketball and the game was arranged to stimulate more interest in Basketball.

Youth Triumphant In The Filming of "All Quiet On the Western Front"

We are forlorn, like children, and experienced, like old men, we are crude and sorrowful superficial—I believe we are lost—The generation that has grown up after us will be strange to us and push us aside—

Trich Maria Remarque

But the generation that grew up after Remarque and his schoolboy soldiers in "All Quiet On The Western Front" did not push them aside. Instead, they seemed to have understood most of all. It was the generation that grew up after him that made the picture!

Young Laemmle was six years old in 1914 and Ayres and the others are truthfully the generation Remarque feared would rush them aside.

How well they understood is told in the picture. It tells the story.

It ever youth was served, it was in the making of "All Quiet" as a motion picture—Laemmle, 22; Ayres, 20; Milstine, 33; Remarque, 30. Producer star, director, author.

This great Universal superproduction is coming to the Capitol Theatre Feb. 12-13-14.

The Annual Meeting of the Raymond Board of Trade was held in the New Town Hall Friday evening last at 8:20 p.m. with President T. O. King in the chair, and a fair representation of members present. Another public gathering in the town no doubt was partly responsible for the small attendance.

The first item of business was the reading of the minutes of the last meeting, and these were accepted and recorded. Then subjects growing out of the minutes were discussed and disposed of as follows:

When Premier Brownlee was here in the summer he had intimated that he would return and speak to the board about the school at any time they asked him. It was reported that he was expected at the A. C. soon to talk on his trip to the Peace River and at the time an effort would be made to have him meet the Board.

The road question was discussed. H. Snow of the Municipal Council stated that the work on the link between Welling and the north side of M. E. 37, and west 2 miles to the Magrath line would be built by the Provincial Government as soon as possible when the remainder of the Yellow Trail was constructed. Questioned regarding the road from here to Welling, Mr. Snow stated the Government would put up dollar for dollar with the Municipality for the building of this, but he was doubtful whether the M. D. would attempt any travelling on this link this year.

ELECTION OF OFFICERS

The Financial statement was then read and accepted, and showed a credit balance of \$1,442.49 to the Board. Part of this is in a Savings Account and part on current account. The balance is just a little larger than last year.

T. O. King then spoke briefly and summarized the Board's activities for the past year; he stated that in the election of officers he would not consider a re-election as President. He then threw the meeting open for nominations for President and other officers, and the election resulted as follows:

President for 1931—Dr. Leech

Vice-Pres.—O. Ray Knight

Sec. Treas.—T. L. Halpin, (re-elected by acclamation.)

Executive Committee: T. George Wood, Chairman; O. S. Longman, S. I. May, T. O. King, DeLoes Lund and W. G. Meeks.

Membership Committee: S. B. Card, C. W. Lamb, L. J. Mehew, J. D. Hall, O. H. Snow, L. D. King and O. J. Rolfsen.

Board Committee: J. Wm. Evans, Chairman, L. D. King, W. P. McDrum, O. H. Snow and J. D. Hall.

OTHER BUSINESS

Two resolutions were then read from the Canadian Chamber of Commerce. The first was ordered tabled and the second in connection with development of the livestock industry was held over, and a committee appointed to investigate this situation and report at a later meeting. The committee are: J. W. Evans, Chairman, S. I. May, and O. H. Snow.

Some correspondence was read and discussion followed regarding the obtaining of natural gas for Raymond and nearby towns. It was decided to have the Secretary write to the Southern Manager of the Canadian Utilities at Lethbridge, and invite an official of the company to come to Raymond and talk over this problem with the Board of Trade.

It was decided to renew membership with the Canadian Chamber of Commerce.

The following were appointed to attend the Banquet in Lethbridge on Feb. 6th, of Southern Alberta Board of Trade to discuss the industrialization of the irrigated districts of Southern Alberta: Messrs. C. W. Leech, T. L. Halpin, J. W. Evans, O. H. Snow, T. Geo. Wood, T. O. King, L. D. King, O. R. Knight, and all others who can attend.

It was decided to hold meetings for the present on the first Monday evening of each month at 8 p.m. in the Town Hall.

The Executive Committee was instructed to proceed with arrangements for a Banquet and social evening as soon as possible to encourage more interest and a larger Board of Trade membership.

A motion was out before the meeting that the Board of Trade donate to the Soldiers Memorial fund. This was discussed pro and con at some length and finally an amendment was made that the matter be left until the next regular meeting of the Board. The amendment carried and the meeting adjourned at 10:45 p.m.

News Notes

SUBSCRIBE TO THE RECORDER.

D. H. Galbraith and W. P. McDrum were in Welling on Sunday the 18th, on a Missionary appointment.

Don't forget the Annual Ratepayers Meeting on Friday night of this week. The annual reports will be presented for discussion.

A number of chicken thieves were apprehended over the week-end and hauled before our local J. P. on Monday.

Quite a number of Stake Board M. T. A. members were in Magrath Tuesday evening attending Mutual there.

Mr and Mrs. S. B. Card were host and hostess Wednesday evening when they entertained a number of guests at dinner and a card party.

Nomination Day will be next Monday with Election Day one week later. Who will be our public officials for 1931.

See Nancy Carroll in her latest Tonight "The Devil's Holiday."

The Benefit Dance on Tuesday evening was very successful. A nice sum of money was turned over to Mr. and Mrs. Wm. Clark. Those sponsoring this event are to be congratulated on its success.

EXPERT OPTICAL SERVICE

MR. A. MELVILLE ANDERSON, OPTOMETRIST, OF ANDERSON AND MCLEAN, SIGHT SPECIALISTS, CALGARY WISHES TO ANNOUNCE HIS REGULAR VISIT TO RAYMOND PHARMACY, THURS. DAY, FEBRUARY 5th. EYES EXAMINED, GLASSES FITTED.

Elders W. P. Litchfield, Weldon Baecon, and J. Bullock were the speakers at the Raymond First Ward Sacrament Meeting Sunday evening. Elder Litchfield spoke of some of the things in his mission that had impressed him most, Elder Baecon expressed the hope that he would be successful in his mission, and Elder Bullock, who has just returned from the Central States Mission, gave a splendid discourse on Pre-Existence.

Eighty-two women attended the lecture at the Town Hall on Saturday given by Dr. Owens of the Department of Health under the auspices of the W.I. and U.F.W.A. Dr. Owens' subject was "Sex Hygiene" and was very well treated. Appreciation was expressed by those present to Dr. Owens and also to the Department for sending her.

A Genealogical Class is now being conducted in connection with the Raymond 2nd Ward Sunday School. The subject now being studied is "The History of Ancient Israel," and last Sunday's lesson was "Out of Captivity to the Land of Promise," and there were 40 present. The class is open to all, commencing at 10 o'clock, and lasting till the regular class period, Mrs. J. T. Hennings is acting as teacher.

PETTY LARCENY

It seems that every town and village has its quota of people who are never any more honest than they have to be. Just why they like to take the chances of arrest and conviction for some of the things that are pulled off, remains a mystery. In a great many cases it is not the value of the thing that is stolen that appeals to them, because the articles could be purchased for a mere pittance and no friendships broken nor confidences shaken.

Just why men and women, otherwise self-respecting and honorable, will stoop to robbing hen roosts, and other small stuff is inexplicable indeed. They not only lay themselves liable to apprehension as we have stated, but more than that were it not for the consideration people have for their standing in not telling all they know, a great many surprises would be forthcoming, and from very unexpected sources. We believe with Solomon that a good name is rather to be chosen than great riches, and once a person's name becomes linked with petty thieving, no matter how insignificant, it is a thing that is not easily forgotten nor forgiven.

It seems too that when people are bent on a chicken supper, they are very inconsiderate as to whose chickens they get, and too often the widow and the needy are victims of these depredations. Why? We would venture the assertion that these same people who oppress the needy in this kind of work, would be the first to yell for protection in things that were of great moment and consequence.

You shout for protection, yet dodge and evade the law in the very things in which you should try and uphold it. There is other petty larceny rampant in our town, and everyone should use their influence to curb it.

We have never yet reported a Police Court case in our column and give any names. We sometimes wonder if we would not be doing a good turn in the curbing of this sort of law defiance if we printed everything with all the sordid details and all names whether of high or low estate. When people deliberately pull down gates, because they don't want to go around, and don't respect people's property rights enough to leave a locked gate locked, it seems to us that it is time for stock taking as if people's reputation and good name suffers, then they should cultivate good ways and keep away from things that will not stand investigation and questioning.

Constable Ellis, A. P. P. of Magrath was here on Tuesday of this week.

Magistrate J. W. Low was here Tuesday and heard one small debt case.

Welling News

On Friday night a dance was held in the Welling Chapel, under the auspices of a nice sum of money pieces of the Relief Society. Supper made.

The dances here seem to be very popular as large crowds always attend.

Vernon Coleman principal of Welling school spent the week-end in Cardston.

There is considerable sickness here at present. Mrs. Arthur Wilde is in Lethbridge taking daily treatment from the doctors there.

The infant child of Mr. and Mrs. Roy Chipman has been quite ill with pneumonia but there is now a slight improvement.

The children of Mr. and Mrs. Leslie Chipman are also ill with severe colds.

The little daughter of Floyd Wilde who has been ill for some weeks is regaining her health rapidly now.

Ernest Bullock and D. E. Wilde were business visitors in Lethbridge on Wednesday.

Morris Bullock who recently returned from a mission to Central States is now visiting relatives here and at Raymond.

REPORT OF ANNUAL BOY SCOUTS MEETING

What a privilege boys to be one of the six thousand two hundred and fourteen registered Scouts in the Province of Alberta! There were 573 Tenderfoot scouts added to the fraternity in 1930, with 35 new troops. One troop as far north as House Coupe, (in the Peace River country), and two in the southern part of the province, Wrentham and Diamond City. What an opportunity for a boy to be linked up in such a fellowship, whose numbers are gaining in strength and whose ideals stand for building of character.

The Mayor of Edmonton in his address of welcome said one thing he had found, that Scouts were ever found to assist in any good cause. Their willingness to serve was outstanding. Prov. C.M. Macleod said that more and more were coming from the ranks. Some had been Cubs, Scouts and Rover, and were now Scoutmasters and Com-missioners in the Province. No greater credit could be given the movement than that such was the case. Com. Macleod also said they felt reluctant in trying to fill Mr. Sol-way's place as he had been so efficient in his work, but they were glad to recommend a man of Mr. Backman's type. His clean moral standard with such high ideals on such questions as smoking, and liquor were much to be commended by any people anywhere. Mr. Backman has the development of the boy at heart.

The responsibility placed on my shoulders in following in Mr. Solways steps in keenly felt said Executive Com. Backman in giving his report. Besides 6214 scouts in the province there are 120 lone scouts, 3 lone rovers and 1 one cub. Much of happiness and profit is thus added to the lives of these boys isolated as they are in farms with no chance of joining patrols.

But he said the outstanding achievement and one long to be remembered by those in attendance, was the Patrol Leaders training Course held at Edmonton during last three days of Dec. He regretted there were not more boys from the Southern part of the province, but hoped their would be this year as it was to be held in Calgary. Will you be one of the lucky boys Raymond Patrol leaders?

Two silver crosses had been awarded. He was proud of what some of the Patrols had done with Toy Shops and the grateful letters from many parents in northern Alberta where Xmas would have passed unnoticed was proof of its success.

They discussed the Gilwell Training Course to be held at Waterton National Park this year in the early part of July.

In mentioning camps visited, he stressed his enjoyment and pleasure at the historic Fathers' and Sons' Outing put over by the Lethbridge, Cardston and Raymond districts. He said it was an event long to be remembered. He sent his appreciation and greetings to the Scouters in this district and wishes for success in the year 1931.

Your delegate wishes to take this opportunity to convey her appreciation to those who made the trip to the Convention possible, and that includes all who helped make our Dominion Day Celebration of last year such a success.

Respectfully,
Mrs. M. W. Boyson

The Indians are Coming—The Indians are Coming—The Indians are Coming.

Constable Van Orman informs us that instructions from the Provincial Department of Public Works are to the effect that convictions and fines will be imposed on all motorists operating with a 1930 license after February 1st. No excuses will be accepted after that date.

HEALTH FROM THE HOUSETOPS

The world and his wife—especially the wife—have of late years acquired a health-consciousness hitherto unknown in the happy days when castor-oil babies were the vogue.

The reason of this thirst for information is perhaps because of the ease by which the knowledge of hygiene may be obtained. Formerly, a wealth of wisdom on health lines was the possession of the medical men only who were content that the layman should remain outside the charmed inner circle of power, and of woman's ability to comprehend the few of hygienic living, they had but a slight opinion. Hence the difficult dicta, the hieroglyphic writing the incomprehensible names in which diseases were shrouded.

All has been changed. Health is

shouted from the housetops. Every newspaper carries its health articles. Mothers-to-be are found studying prenatal care. Grandmothers attend clinics with their grandchildren to see them weighed and measured. Health is everybody's business. No longer, through lack of information, fast humanity live on a low health plane, its energy output reduced as its resistance capacity becomes diminished. Health, radiant and vibrating is the modern vogue.

Every health reading parent wants a better happier home. Daily drift of health habits in every child in every house is the creed of a certain society whose members number two million boys and girls. Alberta children in their thousands are proclaiming daily their allegiance to the simple laws of personal hygiene as set forth in a set of rules.

These short and easily understood rules contain the wisdom of the ages and yet in their simplicity can be kept by even the youngest in any house.

News Notes

Mrs. John T. Henzinger was a Lethbridge visitor last Saturday.

S.S. Rutt reports blackbirds in the grove at his farm over the weekend just passed.

Mr. and Mrs. H. Christensen and family from Stirling were visiting relatives here in Raymond last week.

We came so near having a rain storm Saturday morning that it was hard to know just how to describe it.

Stanley Cook spent Saturday, Sunday and Monday in Magrath visiting with relatives.

Quite a bit of frost left the ground on Friday and Saturday, and the wind had a warm balmy feel.

Helping you solve your printing and advertising problems are all a part of our business. Why not come in and talk it over.

Gophers were reported out on Saturday, also the ants. There is one thing certain, there will be other things than man disappointed if we do have some real winter weather to top it off with.

Last Sunday was Primary Conference in the Raymond Second Ward. A large crowd was in attendance, numbering approximately 415, and all were well repaid for going. After the opening exercises, the time was turned over to the Primary, and the little children gave splendid program.

DATE IS FIXED FOR FORMAL OPENING OF SESSION AT OTTAWA

Ottawa, Jan. 27: (Special to the Recorder)—Thursday, March 5, has been tentatively fixed by the Government for the opening of what is expected to be one of the most important sessions in the history of Parliament. There is a possibility that delay of a week may be occasioned by inability to get the legislative program in shape, but this is not considered likely.

The program is now well determined but in many instances the details

of its application remain to be worked out. The most laborious task is preparation of customs schedules in conformity with the Prime Minister's promise of complete tariff revision. Exhaustive study of every branch of every industry is a necessary forerunner of action for the pledge is that there must be no exploitation of the consumer under the guise of essential protection.

In applying safeguards under this pledge the Government has at work a staff of statisticians at Ottawa, with representatives throughout the country, checking and rechecking wholesale and retail prices before and since the tariff revision of last session. Thus far only two instances have been disclosed in which industries appeared to be taking advantage of the tariff to boost prices and in these two the protection was withdrawn.

There is concerted effort on behalf of manufacturers to secure new increases on perhaps half the 1,200 items of the tariff. Every one of these has to be subjected to a careful study. At the same time it is recognized that unorganized producers of goods in other industries really are as much, if not more in need of assistance than are the organized forces. It is the duty of the Government to watch their interests if there is to be a balanced readjustment of tariffs.

Staffs are also working in preparation for the adjourned Imperial Conference which will meet in Ottawa, probably next fall. Incidentally, Premier Scullin's announcement on his return to Australia that closer Imperial economic unity is assuredly coming finds enthusiastic endorsement among Mr. Bennett's colleagues. The latter insists that the Macdonald Government's suggested quota purchasing for wheat was not rejected, that it could not be reduced to workable formula in time for the London Conference, but is likely to be presented in detail at Ottawa.

TWENTY PER CENT BUSINESS DECLINE ESTIMATED IN 1930

The volume of Canadian business in 1930 is now estimated at more than 20 per cent below the 1929 turn over. Little hope is held for a early recovery in 1931 although a substantial improvement is anticipated in later months.

In the Maritime provinces and Suel

ock Christmas shopping was brisk but otherwise trade was dull. Consumer buying is limited apparently because retail prices in most lines have not yet been adjusted to the lower wholesale levels. Automotive business continues dull but electrical household appliances register an improvement. Speculatives are in good demand and a satisfactory movement is reported in retail hardware. Some sizeable iron and steel orders are expected in the near future.

Utility gifts featured Christmas buying in Ontario. Most retail lines report a satisfactory volume, but the value of sales is much under last year's. The holiday fruit and vegetable trade is understood to have been very good.

Large scale price cutting is reported in the hose industry. Other textile lines are improving their position with fair orders booked. Coal is in greater demand. Sales of petroleum products are about normal.

Christmas trade in the Prairie Provinces was generally disappointing. Sales of new automobiles continued at about 45 per cent under the 1929 figures but used cars have moved well and stocks generally reduced.

Replacement and accessories sales are very satisfactory.

Iron and steel and hardware sales are affected by the decline in building estimated to be 40 per cent lower than last year in the leading prairie centres. Transportation equipment business is good, however, in both construction and replacement branches. Leather and machinery lines are dull.

Christmas sales in B. C. went down 10 to 20 per cent from last year. Pulp and newsprint sales are reported to be 40 per cent under normal.

The Canadian Pacific railway connection between Nelson and Kootenay Landing was opened for service on January 1st. That railway had agreed to run 100,000 tons of coal from the Crownpoint Pass mines as a measure of unemployment relief. November coal production in B. C. as a whole was 25 per cent below the corresponding figure of 1929. Substantial gains over October were registered in the November production of automobiles and iron and steel in Canada although the figures are still appreciably below the corresponding period of 1929. The former a gain of 19 per cent over October is shown by the November output; iron is up to 20 p.c. and steel lagged and castings 20 per cent.

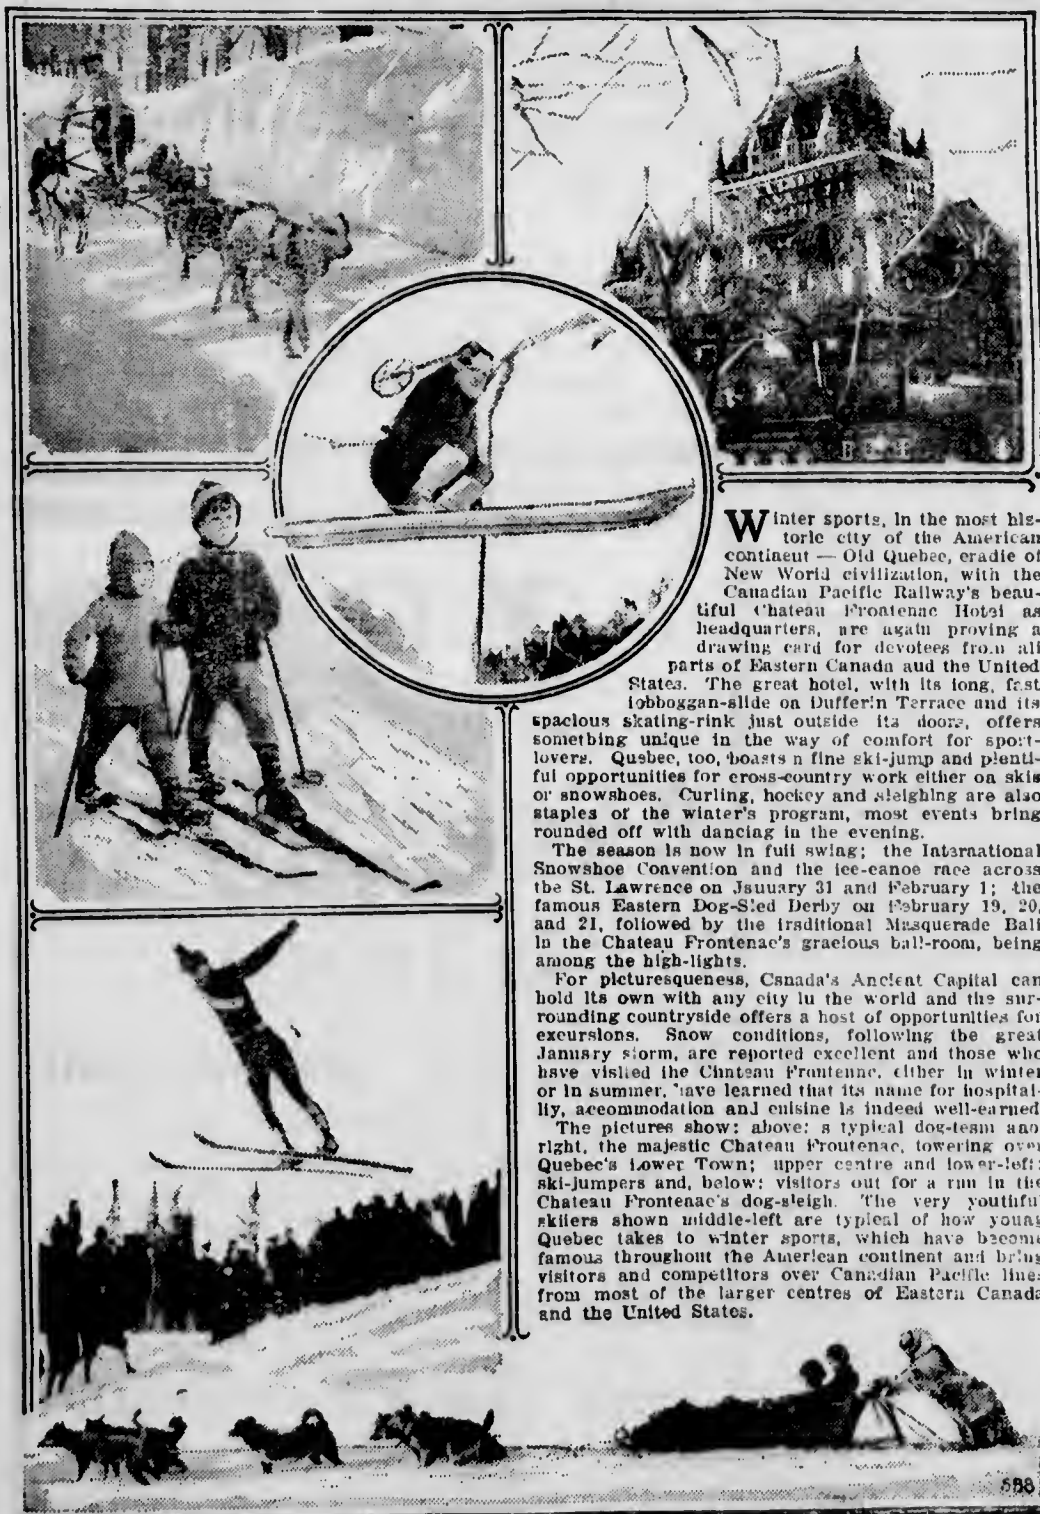

She "knows her Groceries"

She orders by telephone--it's so convenient and saves so much time. Instead of spending an hour in a trip to the market, she makes better use of the time by getting her housework done early. She orders with perfect confidence because she literally "knows her groceries." They are advertised goods, nationally known and nationally used.

She purchases other necessities for her home, for herself, for her husband and for her children with the same confidence. She buys advertised goods because she knows that the manufacturers of advertised articles must keep the quality up to standard if public confidence is to be retained. She is representative of millions of American women who make their homes better, their families healthier, their lives easier and happier by using the advertisements.

Quebec Sets Pace In Winter Sports

Winter sports, in the most historic city of the American continent—Old Quebec, cradle of New World civilization, with the Canadian Pacific Railway's beautiful Chateau Frontenac Hotel as headquarters, are again proving a drawing card for devotees from all parts of Eastern Canada and the United States. The great hotel, with its long, fast toboggan-slide on Dufferin Terrace and its spacious skating-rink just outside its doors, offers something unique in the way of comfort for sports-lovers. Quebec, too, boasts a fine ski-jump and plentiful opportunities for cross-country work either on skis or snowshoes. Curling, hockey and sleighing are also staples of the winter's program, most events being rounded off with dancing in the evening.

The season is now in full swing; the International Snowshoe Convention and the ice-canoe race across the St. Lawrence on January 31 and February 1; the famous Eastern Dog-Sled Derby on February 19, 20, and 21, followed by the traditional Masquerade Ball in the Chateau Frontenac's graceful ball-room, being among the high-lights.

For picturesqueness, Canada's Ancient Capital can hold its own with any city in the world and the surrounding countryside offers a host of opportunities for excursions. Snow conditions, following the great January storm, are reported excellent and those who have visited the Chateau Frontenac, either in winter or in summer, have learned that its name for hospitality, accommodation and cuisine is indeed well-earned.

The pictures show, above: a typical dog-team and, right, the majestic Chateau Frontenac, towering over Quebec's Lower Town; upper centre and lower-left: ski-jumpers and, below: visitors out for a run in the Chateau Frontenac's dog-sleigh. The very youthful skiers shown middle-left are typical of how young Quebec takes to winter sports, which have become famous throughout the American continent and bring visitors and competitors over Canadian Pacific lines from most of the larger centres of Eastern Canada and the United States.

Notes from the A.C.

Mr. and Mrs. Longman are C.I. gary visitors today.

Donald Douglas, Provincial Farm Director, and John Wilson, Dist. Promoter, were business visitors at the school on Monday.

A. N. McDonald, dairy instructor, is expected at the school this week.

Saturday last the Second Year class visited the Dominion Experimental Station at Lethbridge for stock judging work. Classes judged included three classes of dairy cattle, three classes of Yorkshire hogs and three classes of sheep. In addition to judging the above classes, an opportunity to inspect the imported Corriedale sheep, the egg-laying contest and calf feeding experiments was afforded. The trip was highly satisfactory from an educational standpoint and was thoroughly enjoyed by all.

Benjamin Lawton, Provincial Game Commissioner, visited the School on Friday giving the Literary Association a very instructive lecture on "Wild Life" in the Province. Friday evening he exhibited a very interesting film on the same subject, which showed in a striking manner the exceedingly interesting life of the game in the Province. As the full rookeries in Northern Alberta, the annual Prairie Chicken "Dance" and certain bird sanctuaries in the province as well as pictures of many wild fowl, their nests and young.

Following his lecture a student concert was held. The music was furnished by the Whiteman's Junior own orchestra, an organization which, though new, is showing unusual promise.

The big athletic association dance will be held Friday, January 30th. Invitations have already been mailed for this event of the season.

On Monday night the school of Agriculture team played Stirling a very close game of basketball score 31-27 in Stirling's favor. A return game in Stirling has been arranged for Wednesday Feb. 4th.

A field trip for the Second Year girls was arranged on Tuesday. The Steam Laundry, Crystal Dairy and the Macaroni Factory in Lethbridge were visited.

Leaving School at 9 o'clock the happy company arrived in due course at the first place to be visited, the Steam Laundry. The Management

ent very courteously showed the girls through explaining the different things as they went along. It was certainly most interesting and instructive.

After lunch the Crystal Dairy was visited. Here again the girls were conducted from place to place, shown and told of the pasteurization of milk making of ice cream, weighing, packing of butter, etc. On leaving the Crystal Dairy further gladdened the hearts of the girls by presenting each one with a cup of ice cream.

Next was the Macaroni Factory. This was also very educational and the girls gathered a knowledge of the making of macaroni, vermicelli, alphabet macaroni, etc.

The girls all agreed that they had had a most interesting and enjoyable day.

Here and There

(556)

Canada looms more important than ever in the trans-Pacific carrying trade, since the Empress of Japan sailed from Vancouver recently with a total of 998 passengers for Honolulu and the Far East, setting a record for the Canadian Pacific white Empresses for the year and amply justifying the company's expenditure of \$8,000,000 in a ship which is the largest and fastest on the Pacific.

Emergency work in the west on Canadian Pacific Railway construction this fall and winter represents expenditure of more than half a million dollars in alleviation of unemployment. The work is being undertaken in the provinces of Saskatchewan and Alberta. Similar relief in the East is seen in the fact that 550 former employees are now being taken on at the Angus Shops, Montreal, where they will work on repairs to passenger cars.

Bound on her 30,000-mile annual Canadian Pacific cruise around the world which will last four and a half months, the S.S. Empress of Australia sailed on the first lap of her voyage from New York December 2. She will touch at 81 ports and places in 24 countries during the trip and will be at sea 78 days and in port 69 days. She sailed with a capacity passenger list.

Patrons of the Royal York Hotel, Toronto, will enjoy the finest beef at the coming Christmas and New Year festivities possible to procure as a result of the purchase by the hotel management of 60 prize animals at the Royal Winter Fair held at Toronto recently.

A tablet has been erected at Windsor, N. S., by the Canadian Government commemorating the founding of King's College in 1789, the first university in Canada and the oldest in the British overseas dominions.

Total production of honey this year in Saskatchewan will be over 700,000 pounds, an increase of about 300,000 pounds over the output in 1929. Since 1927 the number of bee colonies in Saskatchewan has increased 213 per cent.

At the Ideal Homes Exhibition recently held in Edinburgh, Scotland, the Canadian exhibit was awarded the gold medal for general excellence. This award was made in the face of keen competition from more than 100 exhibitors from all parts of the British Empire.

A preliminary report on Canadian tobacco production shows the 1930 area at 41,391 acres and the production at 36,712,700 pounds, as compared with last year's area of 37,700 acres with an output of 29,786,000 pounds. In 1930 Ontario harvested 28,078,000 pounds from 32,170 acres; Quebec had 8,490,000 pounds from 9,000 acres and British Columbia 144,700 pounds from 221 acres.

Gross value of the manufactured products of the pulp and paper industry in Canada for 1929 was \$243,970,761. This does not include pulpwood nor the pulp made in combined pulp and paper mills for their own use in making paper.

Sunday, July 20, will see nearly hundred tourists leave Montreal and Toronto on the seventh annual Across Canada tour organized by Dean Sinclair Laird, of McDonald College, Quebec. They will travel over 6,000 miles in visiting the Pacific Coast, Vancouver Island, Rocky Mountains, the Prairie Provinces and most every district of outstanding beauty as well as those of industrial and historical interest in Central and Western Canada.

Automatic heat regulation has now been installed for the first time in Canada as regular equipment on railway passenger cars with the introduction by the Canadian Pacific Railway of their new "S" type standard sleepers, constructed at the Angus Shops, Montreal, to the design of the company's experts. Two of them are already in service on the "Trans-Canada Limited."

A bronze memorial tablet marking the house in Fredericton, where Billa Cunniff, Canadian poet, spent his boyhood days, has been unveiled in the New Brunswick capital by the Imperial Order Daughters of the Empire, New Brunswick section.

F. W. Bishop, president of the United Fruit Companies of Nova Scotia, stated recently that fruit growers in the province expected a bumper crop of good quality fruit this year. He was of the opinion that the crop would be about 50 or 60 per cent. high grade.
